Fire Risk Assessment deals with “reaction to fire”, but also the “prevention of” and “preparation for” a possible fire emergency. It is preventing fire through proper management of waste and storage, by identifying “ignition sources” and potential “accelerants” and removing or separating them. It looks at the physicality of the building concerning its current use/users and aims to highlight if current physical and policy measures are “suitable and sufficient”.

Portable Fire Extinguishers professional maintenance and certification services, we are confident that we can give you excellent support at prices you can afford. Extinguishers should be installed using a plan derived from your Fire Risk Assessment, to ensure that the correct type and size of extinguishers are installed. Precision Safety Services only supplies products subjected to the rigorous scrutiny of the BSI which have been awarded the Kitemark symbol.

H&S Assessments Precision complete a methodical inspection of what, in your work, could cause harm to people, so that you can weigh up whether you have taken enough precautions or should do more to prevent injury. Any business, charity or organisation with five or more employees/volunteers is legally required to have fully documented policies and assessments concerning a huge amount of current legislative requirements.

Electrical Test and Inspections The five year electrical inspection condition reports (Lights, Sockets, and Fuseboards) within buildings open to the public is a legal requirement. At present we already provide such services to over 1500 buildings in the UK. We can supply out of hours testing. Once your tests are completed you will receive the full test results, but also the services of our support staff to explain the electrical jargon used in such reports. We can also provide remedial services if required, we price aggressively to give you as much as possible for each pound you spend.

Portable Appliance Testing (PAT) examination of electrical appliances and equipment to ensure they are safe to use. We provide a competent person who decide on the appropriate intervals, depending upon the type of equipment and the environment in which it is used. This is an essential part of any electrical maintenance regime.

Drone Roof Surveying High Definition imaging of your roof and external building structure. Remove the need for expensive scaffolding and also working at height. Our Civil Aviation Certified pilots will provide you with detailed photographs and also video footage; this enables you to fully assess the condition of your buildings from the ground.

Fire Alarm Systems Precision supply, service and install all types of Fire Alarm Systems. We give you the personal service and support that you need. We can design and install basic wired zoned systems or fully addressable ones, that give immediate locations of fires. We support our installations and those we maintain on behalf of our clients, by stocking replacement parts directly. This enables us to respond swiftly to any breakdown and get your system operable as quickly as is possible.

Free Audit of your Premises

We offer an audit service that aims to analyse your current status against legislation. A qualified local expert will explain where you have deficiencies and how they can be addressed. The audit will take around an hour to complete.

Our services will save you time and money by using a single supplier who becomes your competent person. We have flexible contracts, where your prices can be fixed for up to five years.

Our services allow you to manage your time more effectively, by using a single supplier. This lowers your outgoings, and gives you a far greater level of legislative compliance and protection.

Based in South East and the Midlands, Precision Safety Services has a wide range of health and safety services, offering a vast choice of protection and compliance. We work in over 1500 buildings in the UK. Precision were entrusted with the health and safety at the Pope's visit to Westminster Cathedral.

We have a high level of customer service and quality control procedures which are maintained within the company. Our prime objective is to produce a quality service on time and to budget.

Call today on 08000 24 11 24 for your free 1 hour no obligation assessment.

The audit will highlight areas of non-compliance, and demonstrate how our combined services will integrate seamlessly into your organisation.

We guarantee that our services will be explained with no pressure selling.
